Part of the Anti-Graffiti System

Products available

- Fibrocem Graffiti Wipe System
- Fibrocem Graffiti Trigger Spray System
- Fibrocem Graffiti 5 litre Bulk Liquid System

What do these systems do?

The range of Fibrocem Graffiti removers are specially formulated to remove graffiti from Fibrocem anti-graffiti coatings.

These products will allow repeated removals of graffiti without damaging the coatings system (provided the instructions are followed) to ensure long term protection against graffiti vandals.

Where can they be used?

On substrates protected by Fibrocem Anti-Graffiti coatings. Can also be used to remove graffiti from hard surfaces such as glass, ceramic tiles and glazed (non-porous).

Before attempting removal always check substrate compatibility by applying a small amount of product to a discrete area.

The Fibrocem service available to you?

- Unrivalled expertise and knowledge
- Free specification service
- On-site product training when required
- Fibrocem trained contractors available
- On site technical backup

How to remove graffiti from Fibrocem Anti-Graffiti coating systems.

Wipes

Uses: removal of felt pen, biro, crayon etc – unsuitable for removal of aerosol graffiti.

- 1 Wipe affected surfaces with Pre-Wipe then allow to dry.
- 2 Wipe off any remaining graffiti marks with Graffiti Remover wipe.
- 3 Wipe surfaces again with fresh Pre-Wipe to remove any graffiti residues.
- 4 If any graffiti marks remain allow the Anti Graffiti Coating to recover for 24 hours before repeating the process.

Trigger Spray

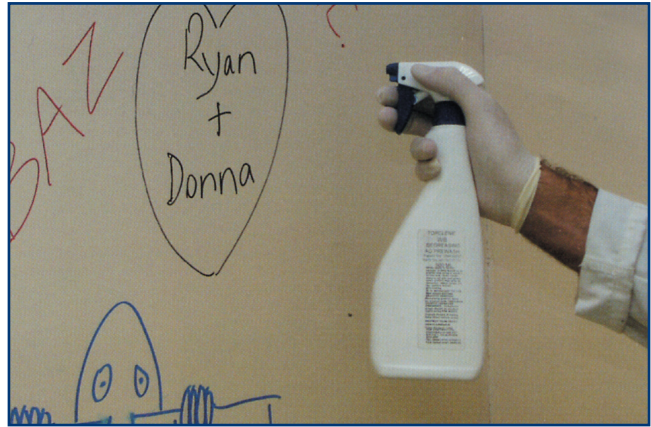

Uses: Suitable for all types of graffiti removal.

- 1 Spray Fibrocem Pre-Wash solution onto affected surfaces then wipe off with a clean soft rag. Allow to dry.
- 2 Spray Fibrocem Graffiti Remover onto the affected surface to produce a thin even layer. Allow to dwell for 30 seconds. Check to see if the graffiti has softened. If further dwell time is required allow a further 20 seconds. Wipe off with a clean rag.
- 3 Treat surface again with Fibrocem Pre-Wash to remove graffiti residues.
- 4 If any graffiti marks remain allow the Anti-Graffiti coating to recover for 24 hours before repeating the process.

5ltr Pack

Uses: Supplied in 5 litre pack size, designed for large scale graffiti removal.

- 1 Treat surface with Fibrocem Pre-Wash solution to remove dirt and any water soluble graffiti marks.
- 2 Apply Fibrocem Graffiti Remover to the affected surface using an old paint brush to produce a thin even layer. Allow to dwell for 30 seconds. Check to see if the graffiti has softened. If further dwell time is required allow a further 20 seconds. Wipe off with a clean soft rag.
- 3 Treat surface again with Fibrocem Pre-Wash to remove graffiti residues.
- 4 If any graffiti marks remain please allow 24 hours for the Anti-Graffiti Coating to recover before repeating the process.
